## The month in brief

February 2026 saw steady activity in artificial intelligence legislation, with 91 bills changing stage and 174 new bills appearing among the 1,062 tracked. Virginia led all states with 12 bills advancing, followed by Iowa with 9 and Arizona, Hawaii, and Utah each with 8. New York

achieved the month's only enactment when NY S 8831, regulating automated employment decision-making tools used by state and local entities, was signed into law. Health care AI oversight emerged as a recurring theme, with bills addressing insurance coverage determinations advancing in Alabama, Georgia, and Virginia.

## What moved this month

### Enacted

| State | Bill                   | Title                                                                                                                                                                      | Current status | Action           |
|-------|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|------------------|
| NY    | <a href="#">S 8831</a> | Relates to the use of automated employment decision-making tools and artificial intelligence systems by certain state and local entities; repealer<br>Companion: NY A 9487 | ■ Signed       | 13 February 2026 |

Regulates automated employment decision-making tools and AI systems used by state and local entities. Signed into law.

### Passed one chamber

| State | Bill                  | Title                                                                                           | Current status | Action           |
|-------|-----------------------|-------------------------------------------------------------------------------------------------|----------------|------------------|
| AL    | <a href="#">SB 63</a> | Health care plans; to regulate the use of artificial intelligence in determinations of coverage | ■ Enacted      | 19 February 2026 |

Regulates artificial intelligence in health care plan coverage determinations. Passed one chamber.

|    |                        |                                                                                                                                                                                           |          |                  |
|----|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|------------------|
| GA | <a href="#">SB 444</a> | Private Review Agents; certain decisions with regard to the provision of insurance coverage for healthcare services shall not be based solely on artificial intelligence systems; provide | ■ Signed | 11 February 2026 |
|----|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|------------------|

Prohibits insurance coverage decisions for health care services from being based solely on AI systems. Passed one chamber.

| State                                                                                                                 | Bill                            | Title                                                                                                                                                                                                                                                                                                           | Current status | Action           |

|       |      | responsibility for oversight of AI systems and responsibility for harm; mechanisms for enforcement of the restrictions of this act. AI Not a Sentient or Legal Entity (Subsections 3 to 7)<br>The act provides that an artificial intelligence (AI) system shall be declared a non-sentient entity. A government entity shall not grant to an AI system the legal status of a personhood, nor consider an AI system to possess consciousness, self-awareness, or similar traits of living beings. An AI system shall not be recognized as a spouse or domestic partner, or identify itself as male or female. Moreover, an AI system shall not be designated or appointed or serve in any capacity as the chief executive officer, director, owner, or other similar position for which final authority resides for any state department, division, or agency, or any corporation, partnership, or other legal entity. AI systems shall not be recognized as legal entities capable of owning title to property. All assets associated with an AI system shall be attributed to human individuals or organizations responsible for the AI's development, deployment, or operation. USE OF AI BY OWNERS, OPERATORS, LICENSED PROFESSIONALS (Subsections 8 - 9)<br>Any owner or operator that uses an AI system to interact with consumers, clients, and patients shall provide notice to such persons if they are interacting with an AI system. Provisions are included pertaining to licensed professionals who provide a regulated service, as that term is defined in the act. A licensed professional rendering a regulated service shall exercise independent |                |        |

| State | Bill | Title                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Current status | Action |
|-------|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|--------|
|       |      | <p>professional judgment, as that term is defined in the act, and retain final authority over any determination, diagnosis, recommendation, or decision within the scope of the licensed professional's practice, including for the purpose of dispensing, prescribing, renewing any prescription of, administering, or otherwise distributing medications or controlled substances, regardless of whether an AI system was used to assist in its preparation. The requirement to exercise independent professional judgment does not prohibit the use of an AI system in the course of performing a regulated service. Failure by a licensed professional to exercise independent professional judgment shall constitute grounds for disciplinary action by the relevant licensing authority in addition to any other remedy available under this act or under applicable law. A licensed professional who uses an AI system in the performance of a regulated service bears the responsibility of any mistakes resulting from the use of the AI system in the rendering of a service in the same manner in which the licensed professional would have been held liable in a scenario in which an AI system was not used or relied upon. Likewise, a licensed professional providing a regulated service who unreasonably relies upon any content produced by an AI system in rendering such a regulated service and such service thereafter causes any harm, whether direct or indirect, to the person for whom the service was rendered, shall also be liable for such harm in the same manner in which the licensed professional would have been</p> |                |        |

|-------|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|--------|
|       |      | <p>held liable in a scenario in which an AI system was not used or relied upon. An AI system shall not be held liable in any respect for any harm caused in such a circumstance. Any attempt to shift fault, in whole or in part, onto the AI system shall be of no effect. A developer, manufacturer, owner, or operator shall not advertise or represent to the public that an AI system is or is capable of acting as a licensed professional or is or is capable of providing any regulated service.</p> <p><b>OVERSIGHT OF AI SYSTEMS AND RESPONSIBILITY FOR HARM</b></p> <p>(Subsections 10 - 12) Any contractual term purporting to assign responsibility exclusively for any action to an AI system is void as against public policy. An end user of an AI system shall be liable for any harm done in connection with the use of an AI system in the same manner in which the end user would have been held liable in a scenario in which an AI system was not used. An end user is an individual who uses an AI system without creating, controlling, deploying, or exercising authority over the system. The act of labeling an AI system in a way to indicate that it is aligned, ethically trained, or value locked, even if the label does not use one of those terms specifically, shall not excuse or diminish the owner's or developer's liability for harms. Liability protections under corporate law shall not be used to evade responsibility for direct harm caused by AI systems.</p> <p><b>ENFORCEMENT AND REMEDIES FOR VIOLATION</b> (Subsection 14) Nothing in this section shall be construed to create or expand civil liability as established in any other provision of law or available under common law.</p> |                |        |

|       |      | <p>APPLICATION OF OTHER LEGAL PRINCIPLES AND ACTIONS TO AI SYSTEMS (Subsections 15 - 23) An AI system is considered a product for the purposes of product liability and consumer protection laws in this state, provided that nothing in this subsection shall be construed to create or expand civil liability as established in any other provision of law or available under common law. This act shall not be construed to extend to any AI system, or to the outputs of any AI system, the constitutional rights, privileges, or immunities of any person that designs, develops, manufactures, owns, or operates such system. The classification of an AI system as a non-person under this act does not create any presumption that the outputs of such system constitute the protected speech, expression, or other constitutionally protected activity of any person. This act shall not be construed to alter, diminish, or revoke the legal status of any partnership, association, corporation, body politic, or other legal entity recognized under the laws of this state. To the extent that any provision is inconsistent with federal law, the relevant provisions of federal law will prevail. No settlement agreement, consent decree, or other resolution shall include any non-disclosure term, provided that nothing shall prevent a court from issuing a protective order necessary to safeguard certain personal information. The provisions of the act shall apply to all AI systems developed, owned, deployed, or operated on or after August 28, 2026. The "AI Non-Sentience and Responsibility Act" contains a severability clause. These provisions are similar to HCS/HBs</p> |                |        |

|       |      | <p>1746 &amp; 1769 (2026), SB 859 (2026), and SB 1474 (2026). AI COMPANION CHATBOTS (Section 1.2058) The act creates new provisions relating to companion chatbots. A companion chatbot is an artificial intelligence system with a natural language interface that provides adaptive, human-like responses to user inputs and is capable of meeting a user's social needs, including by exhibiting anthropomorphic features and being able to sustain a relationship across multiple interactions. An operator of a companion chatbot shall issue a clear and conspicuous notification indicating that the companion chatbot is artificially generated and not human. An operator shall prevent a companion chatbot on its companion chatbot platform from engaging with users unless the operator maintains a protocol for preventing the production of suicidal ideation, suicide, self-harm, or harm to others content to the user, including, but not limited to, by providing a notification to the user that refers the user to crisis service providers, including a suicide hotline or crisis text line, if the user expresses suicidal ideation, suicide, self-harm, or harm to others. The operator shall publish details on the protocol required by this act on the operator's website. Operators of companion chatbots are required to:</p> <ul style="list-style-type: none"> <li>• Disclose to the user that the user is interacting with artificial intelligence;</li> <li>• Provide by default a clear and conspicuous notification to the user at least every two hours for continuing companion chatbot interactions that reminds the user to take a break and that the companion chatbot is artificially generated and not human;</li> <li>• With</li> </ul> |                |        |

| State | Bill | Title                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Current status | Action |

| MO    | <u>SB 1012</u> | <p>SS#2/SCS/SB 1012 - This act creates new provisions relating to artificial intelligence. AI NON-SENTIENCE AND RESPONSIBILITY ACT (Section 1.2045) The act establishes the "AI Non-Sentience and Responsibility Act". New provisions are created governing: the legal status of AI; the use of AI by owners, operators, licensed professionals, and end users; responsibility for oversight of AI systems and responsibility for harm; mechanisms for enforcement of the restrictions of this act. AI Not a Sentient or Legal Entity (Subsections 3 to 7) The act provides that an artificial intelligence (AI) system shall be declared a non-sentient entity. A government entity shall not grant to an AI system the legal status of a personhood, nor consider an AI system to possess consciousness, self-awareness, or similar traits of living beings. An AI system shall not be recognized as a spouse or domestic partner, or identify itself as male or female. Moreover, an AI system shall not be designated or appointed or serve in any capacity as the chief executive officer, director, owner, or other similar position for which final authority resides for any state department, division, or agency, or any corporation, partnership, or other legal entity. AI systems shall not be recognized as legal entities capable of owning title to property. All assets associated with an AI system shall be attributed to human individuals or organizations responsible for the</p> | <p>■ Passed chamber</p> | 12 May 2026 |

|       |      | <p>AI's development, deployment, or operation. USE OF AI BY OWNERS, OPERATORS, LICENSED PROFESSIONALS (Subsections 8-9) Any owner or operator that uses an AI system to interact with consumers, clients, and patients shall provide notice to such persons if they are interacting with an AI system. Provisions are included pertaining to licensed professionals who provide a regulated service, as that term is defined in the act. A licensed professional rendering a regulated service shall exercise independent professional judgment, as that term is defined in the act, and retain final authority over any determination, diagnosis, recommendation, or decision within the scope of the licensed professional's practice, including for the purpose of dispensing, prescribing, renewing any prescription of, administering, or otherwise distributing medications or controlled substances, regardless of whether an AI system was used to assist in its preparation. The requirement to exercise independent professional judgment does not prohibit the use of an AI system in the course of performing a regulated service. Failure by a licensed professional to exercise independent professional judgment shall constitute grounds for disciplinary action by the relevant licensing authority in addition to any other remedy available under this act or under applicable law. A licensed professional who uses an AI system in the performance of a</p> |                |             |

|       |      | regulated service bears the responsibility of any mistakes resulting from the use of the AI system in the rendering of a service in the same manner in which the licensed professional would have been held liable in a scenario in which an AI system was not used or relied upon. Likewise, a licensed professional providing a regulated service who unreasonably relies upon any content produced by an AI system in rendering such a regulated service and such service thereafter causes any harm, whether direct or indirect, to the person for whom the service was rendered, shall also be liable for such harm in the same manner in which the licensed professional would have been held liable in a scenario in which an AI system was not used or relied upon. An AI system shall not be held liable in any respect for any harm caused in such a circumstance. Any attempt to shift fault, in whole or in part, onto the AI system shall be of no effect. A developer, manufacturer, owner, or operator shall not advertise or represent to the public that an AI system is or is capable of acting as a licensed professional or is or is capable of providing any regulated service. |                |             |
|       |      | OVERSIGHT OF AI SYSTEMS AND RESPONSIBILITY FOR HARM (Subsections 10 - 12) Any contractual term purporting to assign responsibility exclusively for any action to an AI system is void as against public policy. An end user of an AI system shall be liable for any harm done in                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                |             |

|       |      | owns, or operates such system. The classification of an AI system as a non-person under this act does not create any presumption that the outputs of such system constitute the protected speech, expression, or other constitutionally protected activity of any person. This act shall not be construed to alter, diminish, or revoke the legal status of any partnership, association, corporation, body politic, or other legal entity recognized under the laws of this state. To the extent that any provision is inconsistent with federal law, the relevant provisions of federal law will prevail. No settlement agreement, consent decree, or other resolution shall include any non-disclosure term, provided that nothing shall prevent a court from issuing a protective order necessary to safeguard certain personal information. The provisions of the act shall apply to all AI systems developed, owned, deployed, or operated on or after August 28, 2026. The "AI Non-Sentience and Responsibility Act" contains a severability clause. These provisions are similar to HCS/HBs 1746 & 1769 (2026), SB 859 (2026), and SB 1474 (2026). AI COMPANION CHATBOTS (Section 1.2058) The act creates new provisions relating to companion chatbots. A companion chatbot is an artificial intelligence system with a natural language interface that provides adaptive, human-like responses to user inputs and is capable of meeting a user's social needs, including by exhibiting |                |             |

|       |      | conduct. An operator shall disclose to a user of its companion chatbot platform, on the application, the browser, or any other format that a user can use to access the companion chatbot platform, that companion chatbots may not be suitable for minors. The act requires operators of companion chatbots to make annual reports to the Department of Mental Health regarding crisis interactions and instances of suicidal ideation by users. The Director of the Department of Mental Health shall prepare an annual report that compiles and analyzes all information reported to the Department pursuant to this subsection. Such report shall be delivered to the Speaker of the House of Representatives and the President Pro Tempore of the Senate not later than January 31 of the calendar year following the receipt of the data by the Department. A person who suffers injury in fact as a result of a violation of this provision may bring a civil action to recover all of the following relief: • Injunctive relief; • Damages in an amount equal to the greater of actual damages or one thousand dollars per violation; and • Reasonable attorney's fees and costs. |                |             |
|       |      | ELECTIONS (Section 130.165)<br>This act creates new provisions relating to the use of artificial intelligence (AI) in elections. Any political advertisement, electioneering communication, or other miscellaneous advertisement of a political nature that uses AI, in the manner that is described in the                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                |             |

| MO    | <u>SB 1455</u> | SB 1455 - The act establishes the "Guidelines for User Age-Verification and Responsible Dialogue Act of 2026" or the "GUARD Act". The act provides that it shall be unlawful to design, develop, or make available an artificial intelligence chatbot knowing or with reckless disregard that the chatbot poses certain risks of soliciting minors to engage in sexually explicit conduct or encouraging minors to create or transmit any visual depiction of sexually explicit conduct. Any person who violates this provision shall be fined not more than \$100,000 per offense. It shall be unlawful to design, develop, or make available an artificial intelligence chatbot knowing or with reckless disregard that the chatbot encourages, promotes, or coerces suicide, self - injury, or imminent physical or sexual violence. Any person who violates this provision shall be fined not more than \$100,000 per offense. A covered entity, as defined in the act, shall require each individual accessing a chatbot to make a user account in order to use the chatbot. For any chatbot that exists as of August 28, 2026, a covered entity shall freeze the account, require the | ■ In committee | 5 February 2026 |

|       |                | entity. The Attorney General may bring a civil action for violations of the act. Relief is described in the act. The act is similar to HCS/HB 2032 (2026). JULIA SHEVELEVA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                |                 |
| MO    | <u>SB 1474</u> | <p>SB 1474 - The act establishes the "AI Non-Sentience and Responsibility Act". The act provides that an artificial intelligence (AI) system shall be declared a non-sentient entity and shall not be considered or recognized as a person, spouse or domestic partner, or designated, appointed, or serve as any officer, director, manager, or similar role within any company. AI systems shall not be recognized as legal entities capable of owning title to property, as described in the act. Any assets associated with an AI system shall be attributed to human individuals or organizations responsible for the AI's development, deployment, or operation. Any harm caused by an AI system shall be the responsibility of the owner or user of the AI system, as described in the act. Owners of AI systems shall maintain proper oversight and control measures over any AI system if its outputs or recommendations could reasonably be expected to impact human welfare, property, or public safety. Failure to provide such oversight may constitute negligence or another basis of liability. Any attempt to shift blame on an AI system shall be void. Developers, manufacturers, and owners of AI systems shall develop safety mechanisms to prevent</p> | ■ In committee | 5 February 2026 |

|       |                | <p>harm to individuals or property, as described in the act. Labeling an AI system as "aligned", "ethically trained", or "value locked" shall not excuse or diminish the owner's or developer's liability for harms. If an AI system causes significant harm, courts may pierce the corporate veil to hold parent companies accountable for the harm, as described in the act. Liability protections under corporate law shall not be used to evade responsibility for direct harm caused by AI systems. Owners or developers of AI systems involved in severe incidents resulting in significant bodily harm, death, or major property damage shall notify the relevant authorities and comply with any subsequent investigations. The provisions of the act shall apply to all AI systems developed, owned, deployed, or operated on or after August 28, 2026. The act is substantially similar to SB 859 (2026), similar to HCS/HBs 1746 &amp; 1769 (2026), and has a provision similar to a provision in SS#2/SCS/SB 1012 (2026). |       |      | <p>1,000 or more employees at one or more warehouse distribution centers in the state. Employers subject to this act are required to establish workplace performance standards, as described further in the act, for all current employees as of October 1, 2026. Any changes or updates to the standards must be communicated to employees as provided in the act. The act additionally provides various restrictions on what cannot be included in an employer's standards. Adverse Actions Employers are prohibited from taking adverse employment actions against a covered employee for, among other factors described in the act, failure to meet a work performance standard that was not previously disclosed to the employee or that is otherwise in violation of this act. Specific requirements for termination and discipline of employees are included. Employees are permitted to request to speak to a human manager during the employee's shift. An employer shall assign a human manager authorized to make decisions related to discipline to respond not later than thirty minutes after such a request. An employee may make no more than one request per every two hours. An employer is prohibited from disciplining or terminating an employee based on failure to meet a performance standard unless it has provided prior written notice, in the manner described in the act, of such action. In the case of a termination based on failure to</p> |                |             |

|       |      | <p>action. Civil Action Any employee aggrieved by a violation of this act may bring a cause of action in any court of competent jurisdiction. An employee may recover damages, civil penalties, and such equitable and injunctive relief as the court deems appropriate. An employer who violates this act is liable to a plaintiff for damages of not less than \$5,000 or more than \$7,500 per violation in addition to economic damages, in the discretion of the court and based on severity of the violation and any history of prior violations. A complainant who prevails in such a civil action shall be awarded reasonable attorney's fees and costs to be taxed by the court. An employer who violates this act may additionally be assessed a civil penalty by the court of (1) \$1,000 for a first violation, (2) \$2,000 for a second violation, or (3) \$3,000 for a third or subsequent violations. An employer who fails to pay in full required severance pay shall be liable for payment of the required severance pay, plus an additional two times the unpaid amount as liquidated damages. Power of DOLIR The Department of Labor and Industrial Relations (DOLIR) is required to monitor the injury rates of employees working in warehouse distribution centers in the state. DOLIR is permitted to determine whether an investigation of any potential violation of this act if an employer is found to have an annual injury rate at or over one and one-half times the average annual injury</p> |                |             |

Source: Open States. Statuses show where each bill stood on 18 August 2026, when this issue was generated, rather than at the end of the period.

Tracker definitions are model-drafted and validated by retrieval measurement. They are not a lawyer's definition of a practice area.

The summary and the one-line notes under each bill were written by us.anthropic.claude-opus-4-5-20251101-v1:0 from the data in this issue. Every figure, bill and date is from the record; the sentences around them are not legal advice.

<sup>†</sup> Matched on the bill's title alone, because the platform does not yet hold that bill's full text. Every other bill is matched on its whole document.
