The month in brief

September 2026 brought modest activity in cannabis legislation, with seven bills changing stage across five states and Puerto Rico. California led with three newly enacted laws: AB 1965 strengthens testing and quality assurance requirements, AB 2250 addresses CBN isolate classification and tobacco retailer restrictions effective January 2028, and AB 2532 mandates Poison Help line numbers and measuring devices for multi-serving cannabis beverages. Delaware enacted HB 411, renaming its enforcement division to include marijuana. Ten laws take effect between October and November, including Connecticut measures on cannabis and hemp regulation, Maryland provisions on medical cannabis use by fire and rescue employees, and Oklahoma restrictions on edible products.
