## The month in brief

May 2026 saw significant legislative movement in data privacy, with nine bills enacted and 20 passing at least one chamber. Vermont led in enactments, signing three privacy measures into law covering data brokers, genetic data, and consumer surveillance. Maryland enacted two comprehensive data privacy statutes, while Connecticut enacted three bills addressing topics from license plate reader data to broader consumer protection. California had the highest volume of chamber passages, advancing bills on sensitive personal information, children's online access, privacy settings, and consumer deletion requests.

Tracker definitions are model-drafted and validated by retrieval measurement. They are not a lawyer's definition of a practice area.

The summary and the one-line notes under each bill were written by us.anthropic.claude-opus-4-5-20251101-v1:0 from the data in this issue. Every figure, bill and date is from the record; the sentences around them are not legal advice.
